

NEWTON NEUROPSYCHOLOGY GROUP

Join **Newton Neuropsychology Group**, a thriving group practice in Newton, MA. Newton Neuropsychology Group provides high quality, comprehensive neuropsychological and psychological assessment of children, adults, and older adults throughout the lifespan using state-of-the-art assessment practices. Our practice offers a friendly and collaborative environment with like-minded professionals, who truly enjoy their work. We foster a "work to live" environment that includes company lunches and outings in order to create a fun atmosphere.

We are looking for **four full-time postdoctoral fellows to join us for the 2025-2026 training year**. Our postdocs will conduct two neuropsychological/psychological evaluations weekly and have an opportunity to maintain a small therapy caseload, if desired. Postdoc candidates will choose either 1) child/adolescent or 2) adult tracks, but will have an option to gain some experience seeing patients outside their designated track, if interested! Postdocs will be provided with individual supervision, group supervision, and weekly didactics. They will also participate in a case conference with staff clinicians. Postdocs will also serve as secondary supervisors to NNG's practica students.

Reasons to join us:

- Competitive compensation
- Excellent supervision/mentorship across various areas of expertise
- Opportunities for formal training with specialized assessments (ADOS, MIGDAS, projectives)
- Opportunity to gain supervisory experience with practica students
- Fun, collaborative work environment
- Hybrid work model, flexible scheduling
- 401K with employer match after one year of employment
- Health, dental, vision plan
- Gym access

Minimum Requirements:

- Doctoral degree in Psychology from an APA/CPA-accredited college or university
- Completion of internship and defense of dissertation prior to beginning
- Significant neuropsychological/psychological assessment training and experience
- Good basic technology skills

To apply, please email your CV, cover letter, 3 letters of recommendation, and a sample report to Dr. Haroon Malik at hmalik@newtonneuro.com. **Applications are due by December 15, 2024.**
